
Managed IT Services for the BFSI Sector

Secure, Compliant, and Always-On IT for Financial Institutions

INDUCTUS TECHNOLOGIES

Why BFSI IT Demands Zero Tolerance for Failure

24×7 Uptime

Transaction integrity and continuous availability are non-negotiable. Even minutes of downtime carry regulatory and reputational consequences.

Cyber & Fraud Risk

Financial institutions face sophisticated, persistent threats — from ransomware to insider risk — requiring layered, always-on defense.

Regulatory Pressure

Basel III, SOX, PCI-DSS, and GDPR demand documented controls, audit trails, and demonstrable compliance at all times.

Legacy Drag

Aging infrastructure limits agility, increases breach risk, and constrains digital transformation initiatives.

Beyond IT Support — A Mission-Critical Operating Mo

Managed IT Services for BFSI represent a fundamental shift — from reactive break-fix to a **proactive, compliance-embedded operating model** designed for financial-grade resilience.

Proactive Monitoring

24×7 threat detection, anomaly alerting, and incident management before impact reaches customers.

Compliance-Aligned Operation

IT processes designed to satisfy regulatory requirements by default, not as an afterthought.

Predictable Cost & Performance

Fixed-fee models replace unpredictable capital expenditure with operational clarity.

End-to-End IT Coverage for Financial Institut

Infrastructure & Network Management

High-availability architecture, patch management, and network performance optimization across on-prem and hybrid environments.

Cloud & Data Center Operations

Secure migration, workload management, and multi-cloud governance aligned to financial data residency requirements.

Cybersecurity & Risk Management

Endpoint protection, SIEM integration, vulnerability scanning, and real-time threat intelligence for BFSI threat landscapes.

Application Support & Maintenance

Core banking, payment platforms, and customer-facing applications maintained with SLA-backed uptime guarantees.

Backup, DR & Business Continuity

Automated failover, geo-redundant backups, and tested recovery playbooks ensuring RTO/RPO compliance.

Why Managed IT Services Are a Strategic Inve

For BFSI leaders, the value extends beyond cost — it's about **operational resilience, regulatory confidence, and customer trust** at scale.

99.9%

Uptime SLA

Guaranteed availability for mission-critical financial systems and customer transactions.

40%

Cost Reduction

Average IT operational cost savings versus in-house legacy management models.

3×

Faster Compliance

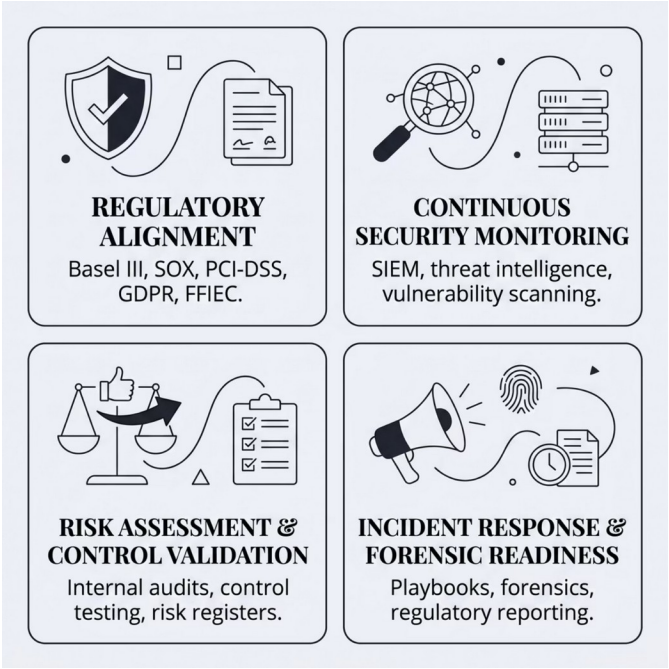
Accelerated audit readiness with pre-built controls, documentation, and reporting frameworks.

24/7

Always-On Support

Round-the-clock monitoring, incident response, and escalation for zero-gap coverage.

Built-In Compliance for BFSI Regulations



REGULATORY ALIGNMENT
Basel III, SOX, PCI-DSS, GDPR, FFIEC.
CONTINUOUS SECURITY MONITORING
SIEM, threat intelligence, vulnerability scanning.
RISK ASSESSMENT & CONTROL VALIDATION
Internal audits, control testing, risk registers.
INCIDENT RESPONSE & FORENSIC READINESS
Playbooks, forensics, regulatory reporting.

Compliance Is Not a Project — It's a Posture

Managed IT Services embed regulatory alignment into every operational layer — from infrastructure hardening to audit-ready reporting dashboards.

Regulatory Mapping

Controls mapped to specific BFSI regulations — no gaps, no guesswork.

Audit-Ready Documentation

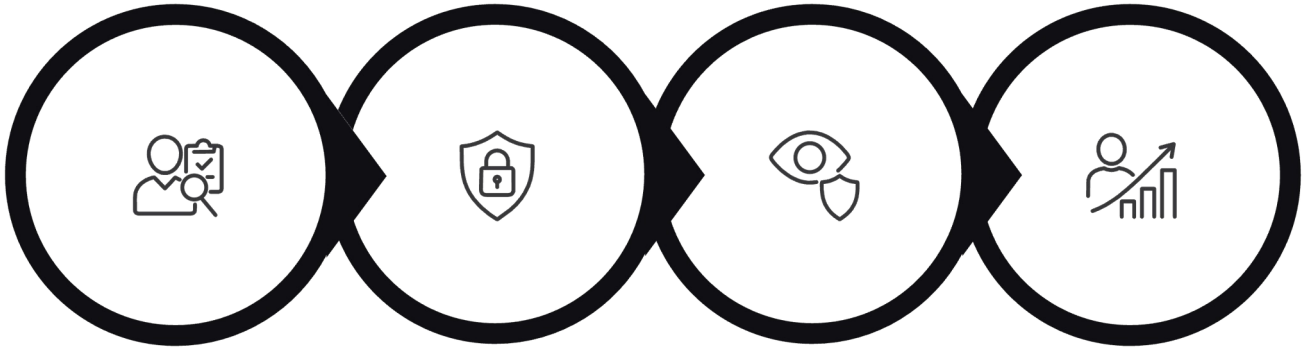
Automated evidence collection and compliance reporting for internal and external audits.

Forensic Readiness

Incident response playbooks and log retention policies aligned to regulatory timelines.

A Proactive, Always-On IT Lifecycle

Our BFSI engagement model follows a structured four-phase lifecycle — ensuring continuous improvement, risk reduction, and operational maturity at every stage.



Assess **Secure** **Monitor** **Improve**

Each phase builds on the last — creating a compounding advantage in resilience, compliance posture, and operational efficiency for BFSI organizations.

Powering Trust, Continuity, and Growth in BFSI

Operational Resilience

Managed IT Services ensure your infrastructure performs under pressure — protecting transactions, customers, and reputation.

Embedded Security & Compliance

Security and regulatory controls are woven into every layer of operations — not bolted on after an incident.

Strategic Focus

Strategic IT partnerships free BFSI leaders to focus on growth, innovation, and customer value — not infrastructure complexity.

> **Operate Securely. Comply Confidently. Scale Reliably.**
